WARNED BY CARRANZA OFFICERS THEY ARE NOT TO OCCUPY TOWN.

VILLA'S MEN BURN BRIDGES

May Delay Dodd's Men—Aeroplane Squadron to Join Expedition—Columbus Presents Scene of Fervent Activity.

El Paso, Texas.—American troops have reached Casas Grandes, Gen. Gabriel Gavira announced at Juarez. Casas Grandes is a little more than 60 miles from the point where Col. George A. Dodd's columns entered Mexico, so that the Americans have been moving more than 30 miles a day.

Gen. Gavira announced that he had received a telegram announcing a courier from the Americans already had reached Casas Grandes. The general said he had wired Lieut. Col. Refugio S. Davila, in command of the Constitutional garrison at Casas Grandes, not to permit the Americans occupy that city.

Simultaneously the first indication of activity on the part of Villistas and of their intention to resist the American expeditions came in reports that Villa's followers had burned a railroad bridge on the Northwestern Railroad of Mexico, between Summit and San Pedro, Chihuahua.

DRINK HOT WATER AND RID JOINTS OF RHEUMATIC RUST

Why rheumatism and lumbago sufferers should drink phosphated hot water each morning before breakfast

Just as coal, when it burns, leaves behind a certain amount of incalculable material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste material, toxins and ptomaine-like poisons, called uric acid, is formed and then sucked into the blood where it continues to circulate, collecting grain by grain in the joints of the body much like rust collects on the hinge as shown above.

Men and women who suffer from lumbago, rheumatism or sore, stiff, aching joints should begin drinking phosphated hot water, not as a means to magic relief from pain, but to prevent more uric acid forming in the system. Before eating breakfast each morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This will first neutralize and then wash out of the stomach, liver, kidneys and bowels the previous day's accumulation of toxins and poisons; thus, cleansing, sweetening, and freshening the entire alimentary canal, each morning, before putting more food into the stomach.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to make any
